

Discovering Butterflies

Colour in the “new” butterfly you have discovered

Give it a latin name (use your first name followed by the letters ..us and then your second name followed by the letters ..ia)

Name:

.....us

.....ia

Larval foodplant

Write down its larval foodplant (the plant needed to feed the caterpillar) - remember which plant you choose will influence where in the country the butterfly will be seen, how common it is, and what time of year it will emerge.

Send your discovery into Butterfly Conservation - www.butterfly-conservation.org
